

The Freemont Group: Our company profile

Freemont Group is a well established provider of trust and professional corporate services. From our offices in Dubai, Curaçao and Cyprus we serve an international clientèle of small to medium sized businesses, high net-worth individuals, and consultants. Our services include asset protection, tax planning, company succession and estate planning. We are a registered agent of Ras al-Khaimah International Business Companies (IBC).

History

The Freemont Group originated from the Netherlands in 1984 and has gained a name in the field of tax planning and corporate services. We have formed thousands of UK-incorporated limited liability companies for entrepreneurs in the Netherlands, which provide a flexible alternative to the Dutch B.V. In 2003 the rising prominence of UK limited companies in the Netherlands led to the famous 'Inspire Art' case, in which the European Court of Justice confirmed that any company with limited liability formed in one EU member state could perform all its activities in or within another member state.

Our office in Cyprus (left)

Our office in Dubai

Cyprus

In 2001 and after successfully incorporating thousands of UK companies we explored new horizons by moving our head office to Cyprus which allowed us to offer our clients international tax planning and mitigation services. In Cyprus we are now fully equipped to enable our clients to benefit from the most favourable tax and holding company regime in the EU.

Dubai

In 2006 the expansion continued with the opening of our office in Dubai (United Arab Emirates) which is both a zero-tax haven and one of the world's leading trade centres making it an ideal location for managing trade activities.

Dubai is also an outstanding jurisdiction to locate a top holding company. Through an increasing network of tax treaties investments can be attractively made into a range of countries, for example: India, Indonesia and Austria. Investments into the EU can be structured advantageously through an intermediary holding in Cyprus while excess funds can be invested in Dubai's booming real estate market.

We are a licensed registered agent for Ras al-Khaimah international business companies for which we provide registered office services at our Dubai office. With a presence in both Dubai and Cyprus we offer our clients a comprehensive tax planning solution, enabling us to help clients minimise their tax burden in a wide range of different circumstances.

Curaçao

In 2007 we opened our most recent office in Curaçao which is an attractive jurisdiction for locating a top holding company. Furthermore it is an ideal place to base your internet and other e-commerce activities while profiting from the very low corporate tax (2%) and absence of VAT.

We can also offer the ‘Stichting Particulier Fonds’, (private foundation), in Curaçao which is a well known asset protection vehicle used for estate planning.

The Fremont Group is always evolving in new ways to deal with the latest developments in a constantly changing and more global world. We have drawn together a skilled, multi-lingual professional team including qualified accountants, tax planners, and attorneys. Together we can make your business flourish.

The content of this brochure is a description of the products and services offered by the Freemont Group and should not be seen as legal / tax advice. We recommend you to seek relevant advice based on your particular circumstances, from independent tax and / or specialist advisors, before making use of our services.
